CUTTING EDGE 2010 - Bangalore
...Attitudes & Practices in India – Reality Bytes!!

Dear friends,

*Nothing is more difficult and therefore more precious
than to be able to decide.*

- Napoleon

Having extensively surveyed the Knowledge, Attitudes & Practices (KAPs) amongst the ObGyns across India, we have been able to gather startling facts and identify the GAPs in KAPs. An attempt to address this at Cutting Edge 2010 should make this a journey for introspection, audit and coming to terms with obstetric hypocrisies! It is also a great opportunity to discuss the practicalities of implementation of practice guidelines in a low resource setting like India.

Welcome to a fascinating mix of research and evidence, translating into practice where REALITY BYTES!!!

CUTTING EDGE 2010 awaits your participation!

Warm regards,

Dr Hema Divakar

CEO & Chairman
