INFERTILITY PRACTICE IN INDIA - CHALLENGES AND OPPORTUNITIES

Dear Friends,

It is with great privilege that we extend a warm welcome to all delegates attending Cutting Edge 2013 – “Infertility practice in India - Challenges and opportunities”

In the recent years a lot of experience has accumulated in the treatment of sub-fertile couples, be it ovulation induction, endoscopic correction or ART. But it is important to tailor treatment protocols optimizing the probability of pregnancy and at the same time keep the risks of complications and cost at the minimum.

All the deliberations will be by experts in this field and would be based on clinical experience.

The scientific content would be of high caliber and cutting edge with advances discussed in the field of ovulation induction and management of non-endocrine causes of infertility. Each session will be followed by adequate discussion, which will give opportunity to both the faculty and delegates to exchange experience and knowledge. Poster presentation will definitely allow our delegates to display their knowledge in research and analysis.

We cordially invite you to join us for this scientific event to enrich your expertise and enjoy the timeless beauty and warm hospitality of Bangalore.

Looking forward to your active participation

Warm regards,

Organizing Team

Hema Divakar
CEO & Chairman

G.V. Divakar
Event In-charge

Madhuri Patil
Convener

Milind Patil
Co-ordinator

TEAM INDIA  **ARTIST**
Asian Research & Training Institute for Skill Transfer

Course Objective

- To gain basic and advanced knowledge of ultrasound assessment in the field of reproductive medicine
- Know the latest development and trends related to managing PCOS
- Demonstrate the advantages, the potentials and limitations of endoscopy in improving fertility
- Impact of endometriosis/myoma on fertility and dilemmas about treatment
- Understand the technique and efficacy of all the different fertility preservation techniques
- Know the impact of obesity on fertility and pregnancy

Invited International Faculty

Siladitya Bhattacharya, UK
